

09- The text-align property

THE text-align PROPERTY

Note:

The text-align property allows you to control the alignment of text.

The property can take one of the four values:

- a) **left**: this indicates that the text should be left-aligned.
- b) **right**: this indicates that the text should be right-aligned.
- c) **center**: this allows you to center the text.
- d) **justify**: this indicates that every line in a paragraph except the last line, should be set to take up the full width of the containing box.

```
7 <body>
8   <div id="container">
9     <div class="banner">
10      
11    </div><!--End of Banner-->
12    <div class="row">
13      <div class="logo">
14        
15      </div><!--End of Logo-->
16    </div>
17  </div><!--End of container-->
18 </body>
```

09- The text-align property

```
6  #container{
7      width:960px;
8      background:#fff;
9      margin:0px auto;
10 }
11
12 .row{
13     width:100%;
14     background:#fff;
15     float:left;
16 }
17
18 .logo{
19     width:100%;
20     text-align:center;
21 }
22
23 .logo img{
24     width:125px;
25 }
```

text-align

our logo appears at the center of the page
