

### The list-style-type property

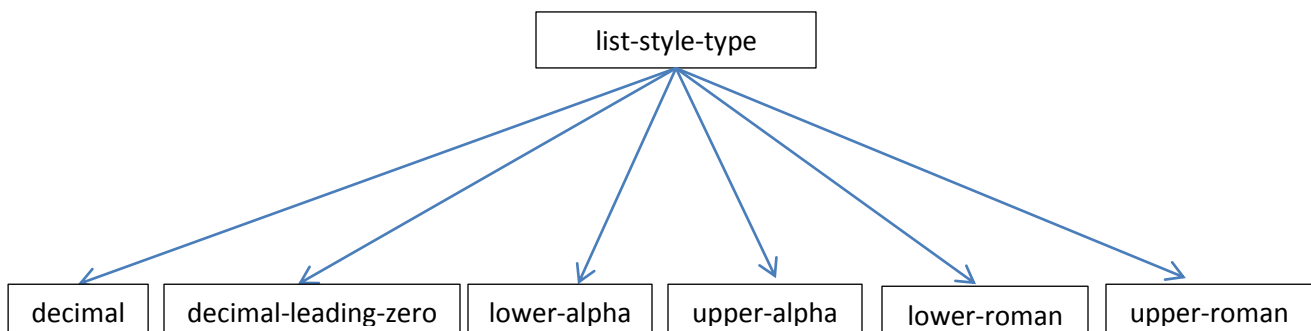

The list-style-type property allows you to control the shape or style of a bullet point.

It can be used on rules that apply to the `<ol>`, `<ul>` and `<li>` elements.

For the UnOrdered list `<ul>`, you can use the following values.

For the Ordered list `<ol>`, you can use the following values.

## 034- The list-style-type property
