The font-size property

The font-size property enables you to specify a size for the font.

```
1  body{
2      background:#eeeeee;
3      margin:0px;
4      font-size:13px;
5  }
6
```

the font-size property

```
56  <div id="content">
57      <div id="intro">
58          <div class="row">
59              <div class="col-full">
60                  <h1><center>Welcome to Team Piccolo Global Enterprises Web Development Class</center></h1>
61              </div>
62          </div>
63          <div class="row">
64              <div class="col-half">
65                  <img src="./images/coo.jpg" />
66              </div>
67          </div>
68      </div>
69  </div><!--End of content-->
```

```
20          text-align:center;      20          text-align:center;      20          text-align:center;      20          text-align
21     }                            21     }                            21     }                            21     }
22                                  22                                  22                                  22
23  .logo img{                      23  .logo img{                      23  .logo img{                      23  .logo img{
24      width:125px;                24      width:125px;                24      width:125px;                24      width:125px
25  }                               25  }                               25  }                               25  }
```
