The pseudo class

There are three pseudo classes that allow you to change the appearance of elements when a user is interacting with them.

a) **:hover**
b) **:active**
c) **:focus**

the pseudo class (hover)

```
63  ⊟nav ul li a:hover{
64      background:#161616;
65      color:#fff;
66  └}
```

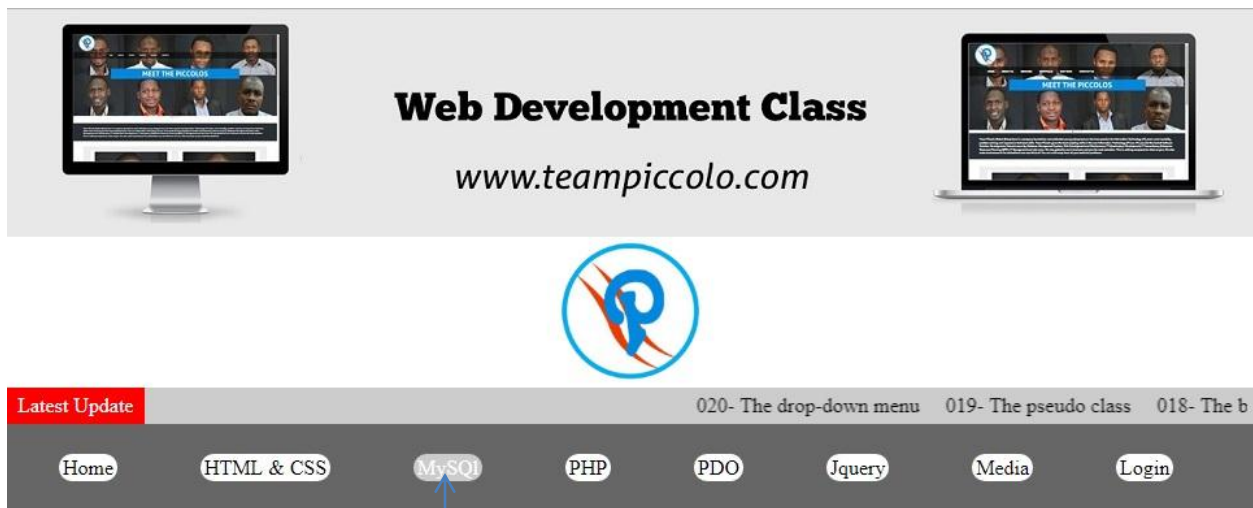

when a user hovers over the link, the background color changes and the text changes

the pseudo class (active)

```
68    ☐nav ul li a:active{
69         background:#ccc;
70     └}
```

Web Development Class

Latest Update   020- The drop-down menu   019- The pseudo class   018- The b

Home   HTML & CSS   MySQl   PHP   PDO   Jquery   Media   Login
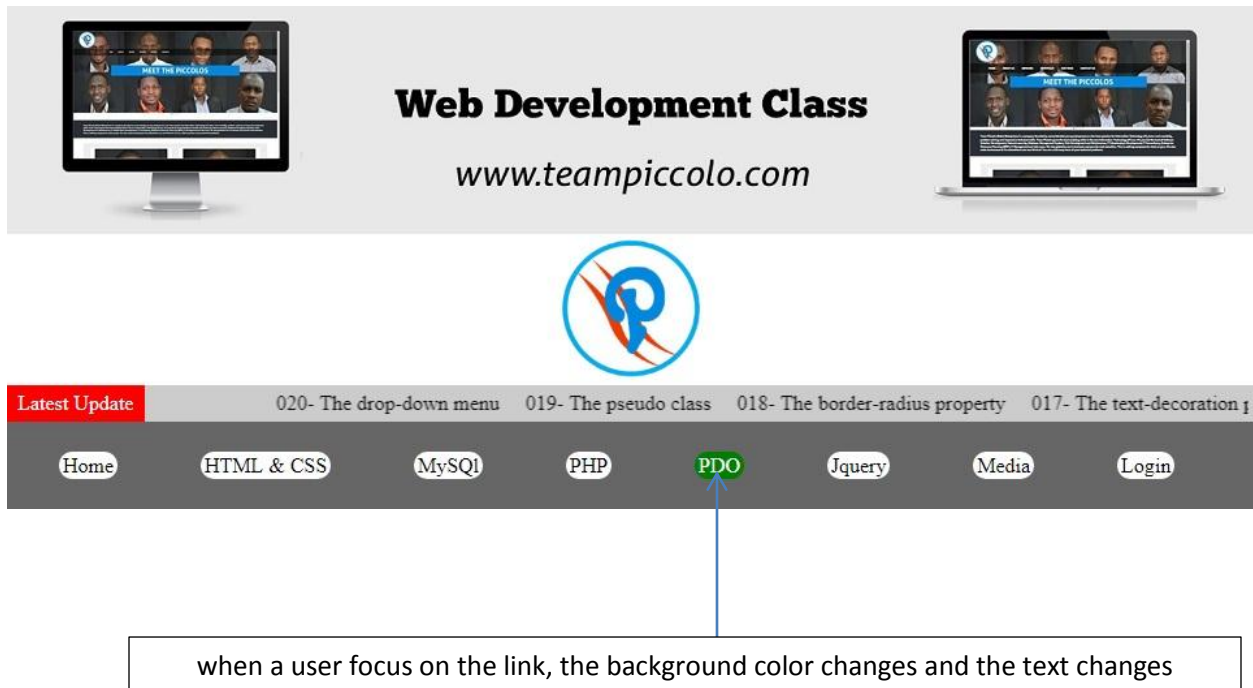

when a user clicks on the link, the background color changes and the text changes

the pseudo class (focus)

```
72    ☐nav ul li a:focus{
73         background:green;
74     └}
75
```

when a user focus on the link, the background color changes and the text changes
